How to apply for a digital certificate?

To obtain a digital certificate, a DEA registrant must enroll in the CSOS program through the DEA website (deaecom.gov). Every individual who wants to sign electronic orders for controlled substances must enroll with the DEA to acquire his or her own personal digital certificate.

Choose your applicant type:

- Registrant – Individual who is authorized to sign DEA applications. The Registrant applicant must name him/herself as Coordinator or delegate the role to another Principle Coordinator or existing subscriber.
- Coordinator – Any individual employed by the DEA Registrants organization. The Principle Coordinator is a required role for each DEA registration number in the CSOS program and will be the primary CSOS contact. If the Registrant is requesting to be the Coordinator, he or she should apply only as a registrant and indicate him or herself as the Coordinator.
- Power of Attorney – Individual with the authority to sign controlled substance orders for a DEA Registrant.

What happens after I enroll?

Once the enrollment process is complete, within about six weeks the DEA will send an activation notice via email and postal mail containing your access code and password. These two items (access code and password) must be married up in order for you to retrieve your digital certificate from the DEA website.

When all documentation has been received, contact Hikma Addiction Therapy Services (Toll Free 833.449.3475) to gain access to the csos.hikma.com website. Hikma will assist you in setting up your account and provide training for use of the system.
